

## What is MPVEX?

Most Industry experts agree that the business phone closet is becoming smaller or not even necessary anymore.

Metropark Voice Exchange (MPVEX) empowers small, medium, and enterprise size businesses to access new SIP Trunking, Mobility, Unified Communications and Hosted PBX features to greatly increase business communications while lowering monthly costs like never before.

## Did You Know?

**40%** savings over traditional phone systems

**Mobile VoIP Users Exceed 1 BILLION in 2017** (Juniper Research)

## The Future is Here. Are You?

The communications industry is undergoing an unprecedented phase of technological innovations. Cloud communication products and services continue to flip the industry on its head, putting you in control. These solutions enable your company to leverage the latest features and capabilities, which are extremely easy to use and very cost effective. Experience explosive growth with services like PBX in the CLOUD, VoIP, SIP Trunking, Unified Communications, Fax over VoIP, Redundant Broadband Services and much more.

## What Makes MPVEX the Clear Choice?

### Easy to use. Feature rich. Future-proof.

That's what you get from us right out of the box. Easily accessible via any modern web browser or mobile device, our feature rich platform helps to improve your communications, streamline your business processes, and facilitates your growth and success. In addition, our support for our customers is second to none, and our experienced support team endlessly strives to enable you to compete and win, and sound good doing it.

As your needs grow and change over time, so do our features and capabilities. Endlessly scalable, flexible, and reliable, our Metropark Voice Exchange communications platform is truly future-proof, so you can focus on your business, and know that your communications solution will always remain relevant and competitive.

# MPVEX Products & Services

## PBX in the CLOUD

You want a reliable, high-quality phone system that simply works. You want to focus on your business, and not your communications platform. Our MPVEX system adapts and adjusts to your needs and seamlessly works the way you do. Whether you have five (5) or five hundred (500) employees, we have a solution that meets your needs.

- Built-in Redundancy and Failover
- Easy to use and manage
- Full PBX capabilities utilizing easy interface
- Eliminate costs of a traditional phone closet
- Low monthly phone bills

# MPVEX Features & Benefits

## Configuration Flexibility

Our reliable, feature-rich hosted phone services adjust as you need them to. We make it easy for our customers to deploy the communication apps and solutions that your business needs, creating an in-office experience right at your fingertips, wherever you are on whichever device you choose.

## Mobility Mastered

Mobility is paramount in today's business world. Keep your company connected with a wide array of mobile features—from cloud extensions, find-me follow-me, group and simultaneous ring, to voicemail to email, and much more. All designed to help you conduct business anywhere through any device.

## Expert HelpDesk

We're here to support your business at every level with our always-available, skilled and professional technical and engineering team. We'll help you with your specific needs and concerns, while giving you personalized support you won't find anywhere.

## Business Continuity

Virtually eliminate business downtime should your local area network (LAN) or wide area network (WAN) communications network go down. Your communications solution is still running in our cloud environment, so your customers, vendors, and employee calls can keep flowing. A good disaster recovery plan will help your business in good times and bad. With our solution, a good business continuity plan is extremely cost effective, and readily available based on your individual business needs.

## Customer Tested

Our products and services are customer tested, and approved—we've enabled countless businesses to improve their communication channels easily, and effectively, to transform their business into a competitive powerhouse. With a full range of front and back-office features, you can rest easy knowing your business is taken care of, now and for the future.

“*Metropark took over all of my communication headaches, put in a brand new voip and data network... and believe it or not, my monthly costs went down...*”

- Lazlo Conners, Wired Wireless, Inc.
